Evolution of SP Collaborative Farm VM Centric – one image

Development + production in place single pc.
Dangerous, unsophisticated, proof-of-concept.

Enterprise Size: Small

Evolution of SP Collaborative Farm VM Centric – multiple image

Legend

Deploy

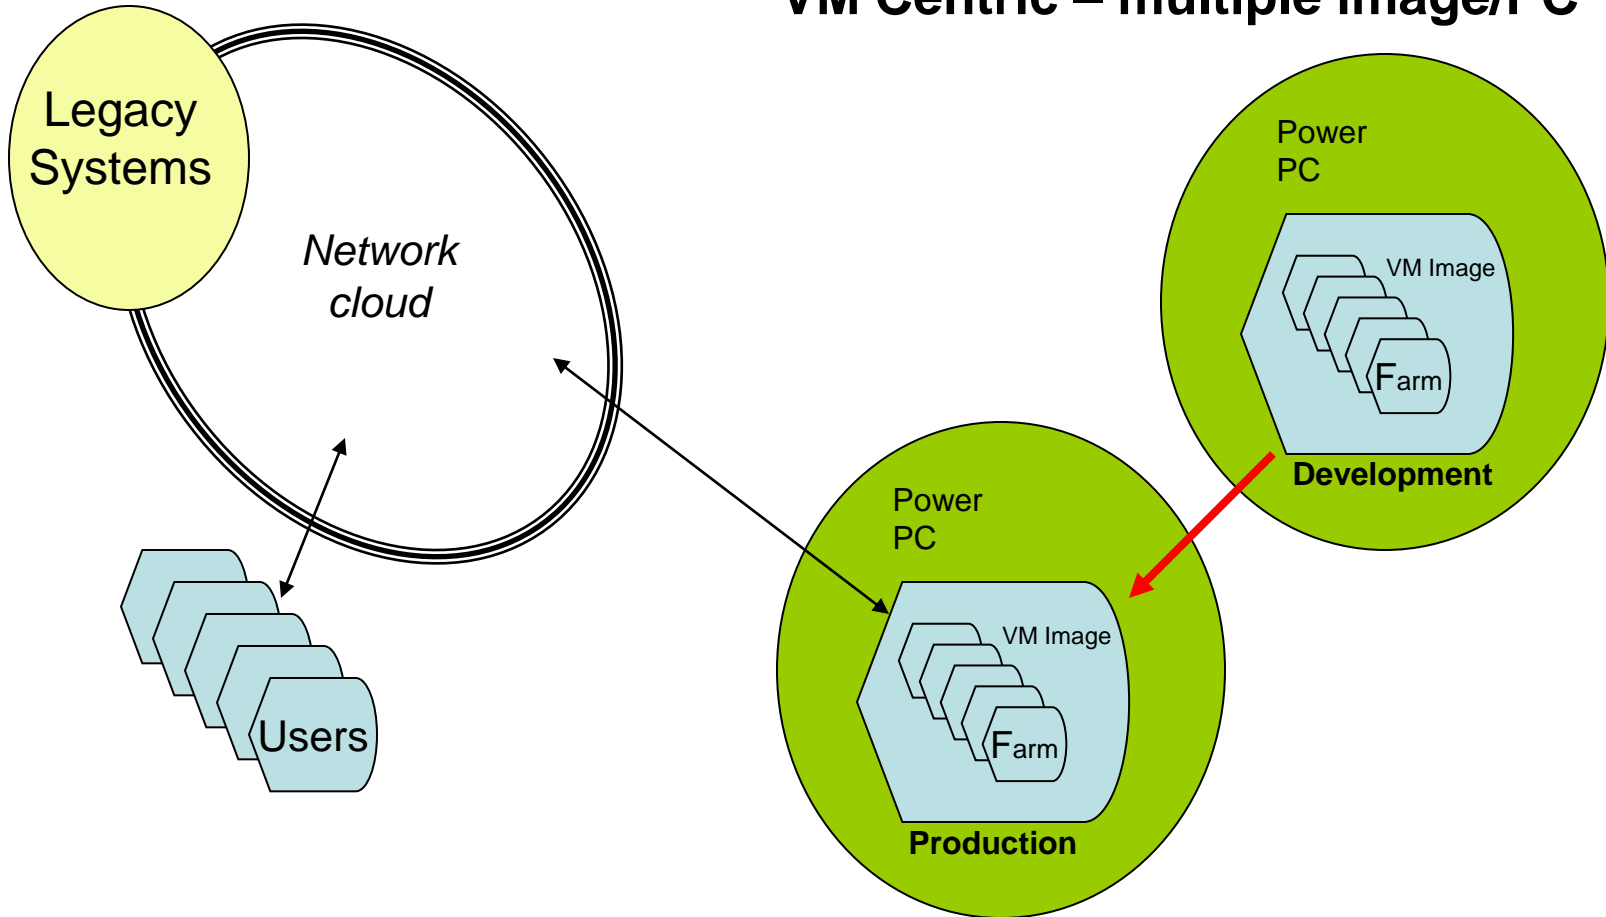

Development and production multiple VM images
in place single pc.

Enterprise Size: Small

Evolution of SP Collaborative Farm

VM Centric – multiple image/PC

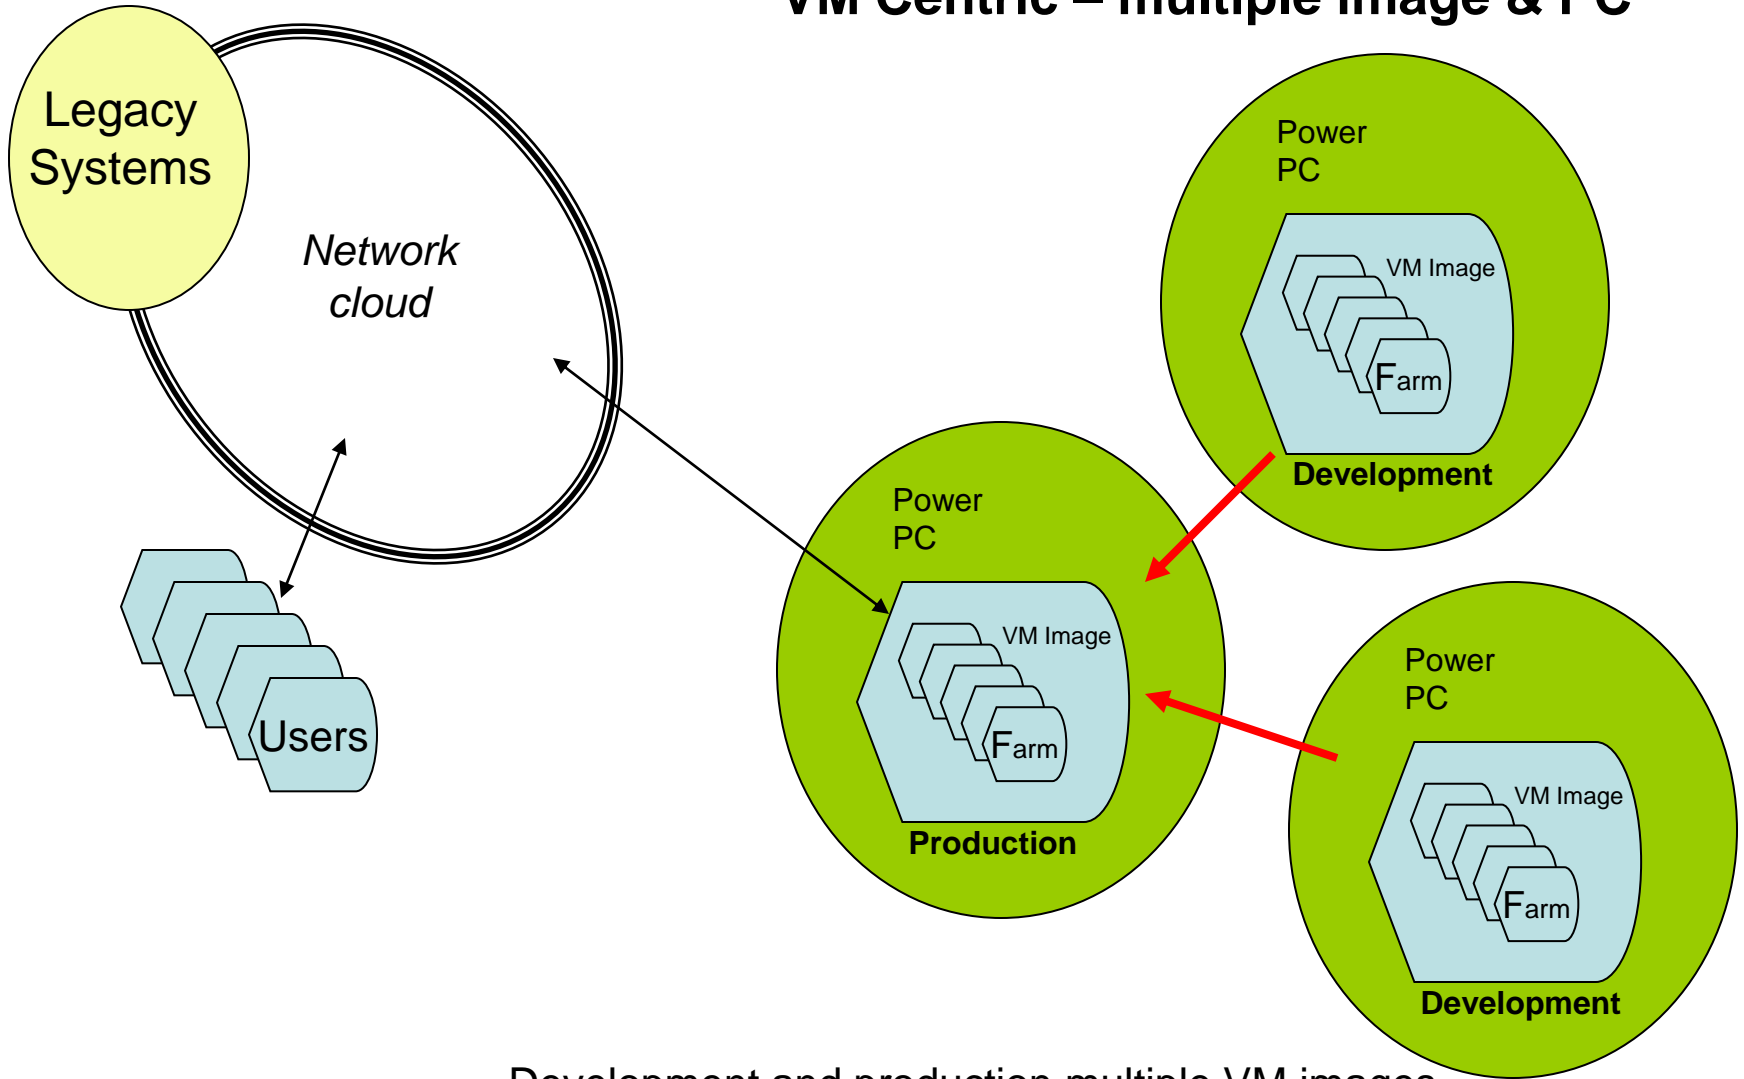

Development and production multiple VM images in place multiple pc. This is VM Team Model

Enterprise Size: Small

Evolution of SP Collaborative Farm

VM Centric – multiple image & PC

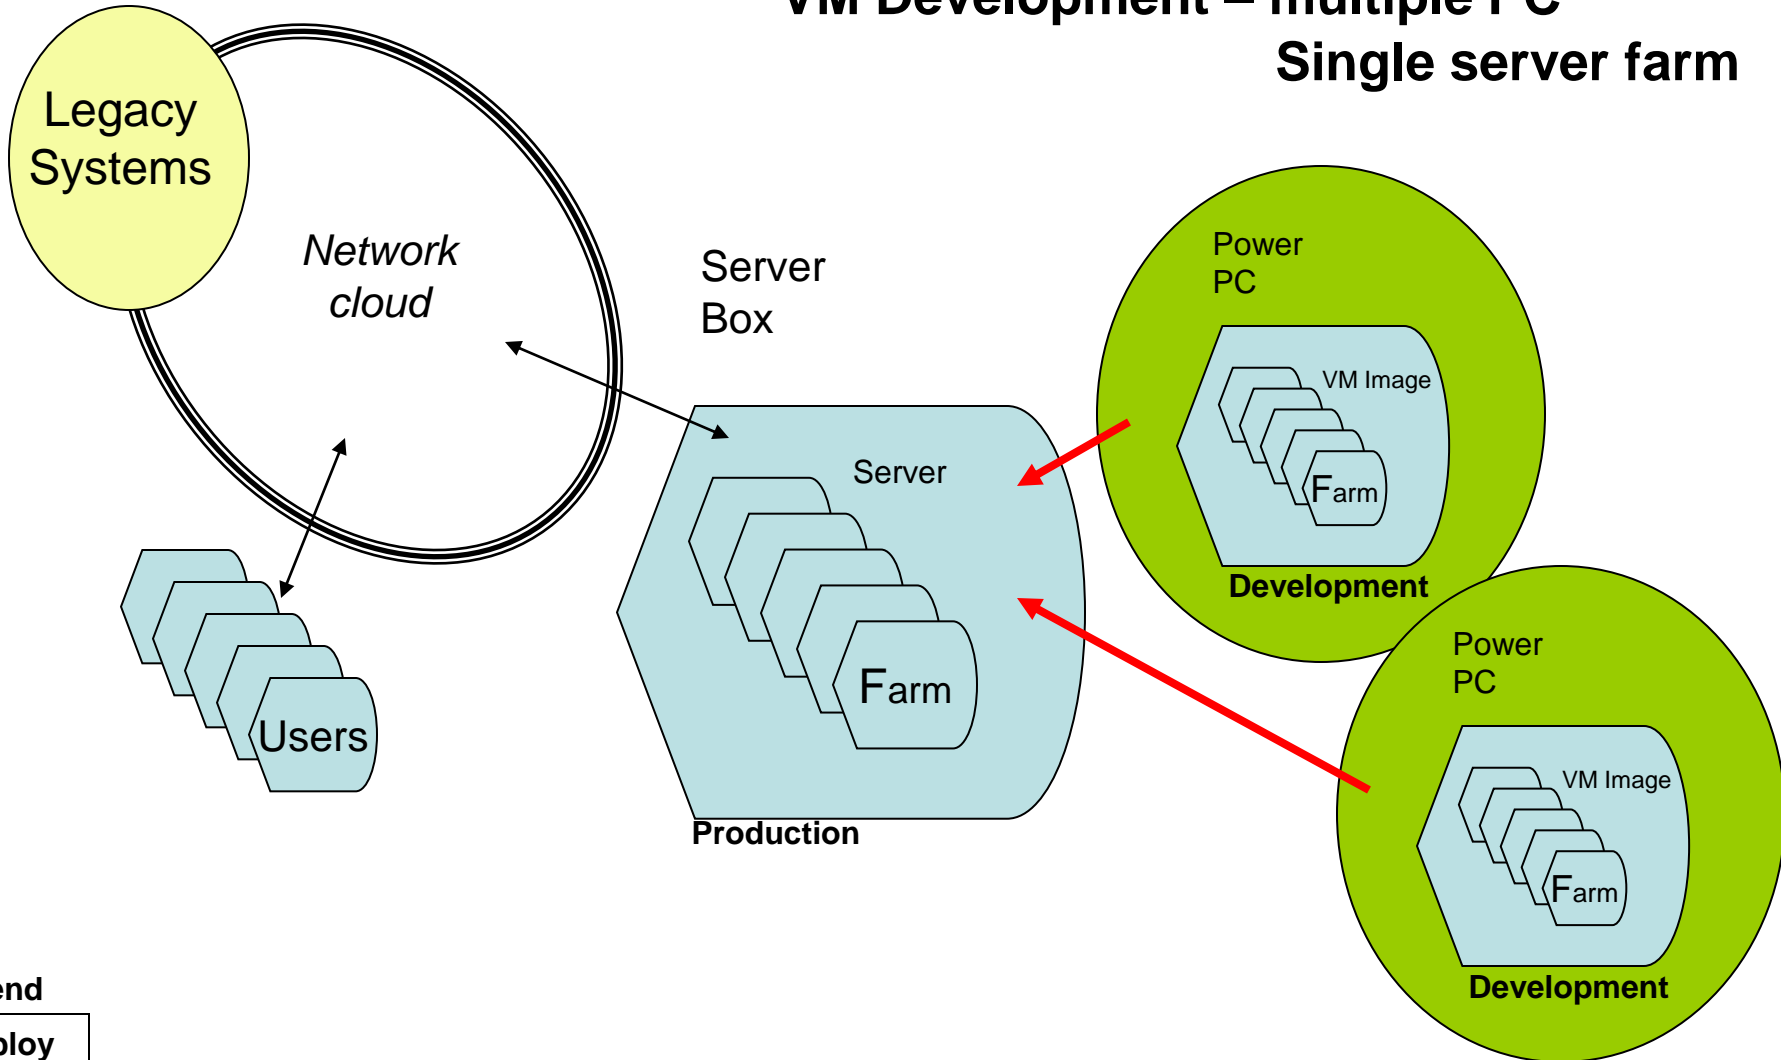

Development and production multiple VM images in place multiple pc. This is VM Team Model

Enterprise Size: Small/Medium

Evolution of SP Collaborative Farm

VM Development – multiple PC

Single server farm

Legend

Deploy

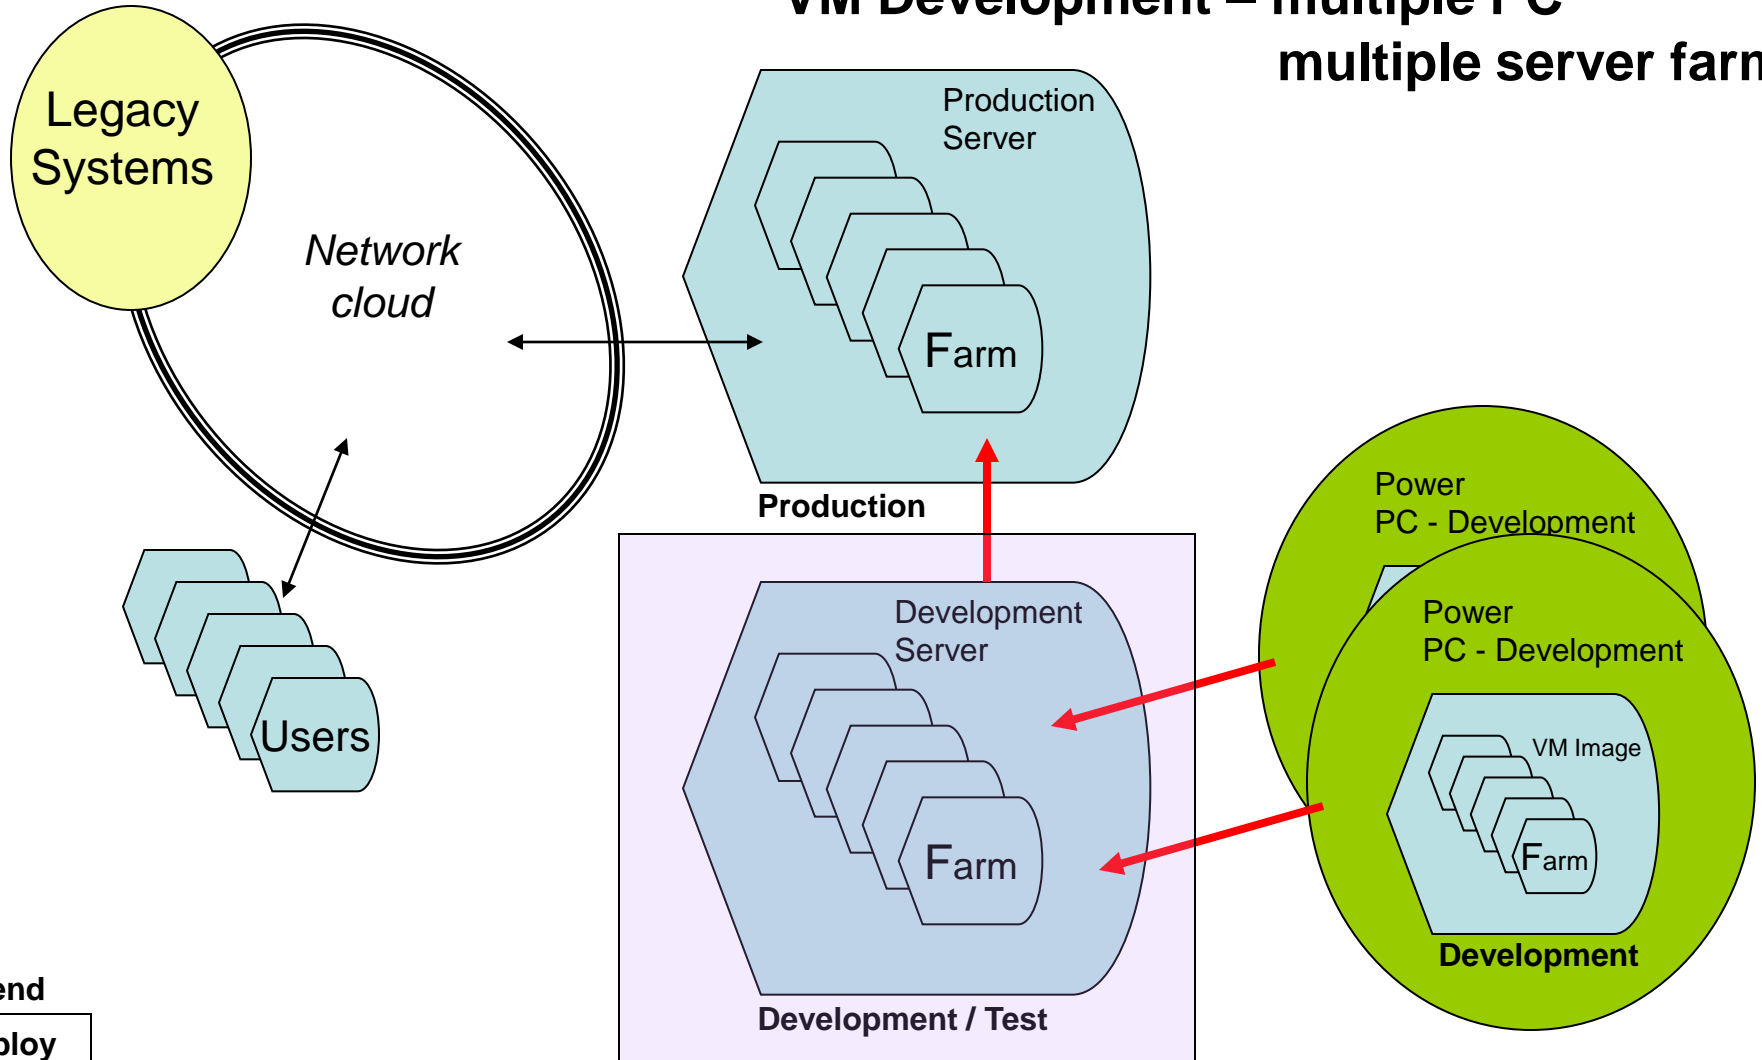

Production single server. Development multiple VM images in place multiple pc. This is VM Team Model development

Enterprise Size: Small/Medium

Evolution of SP Collaborative Farm

VM Development – multiple PC

multiple server farm

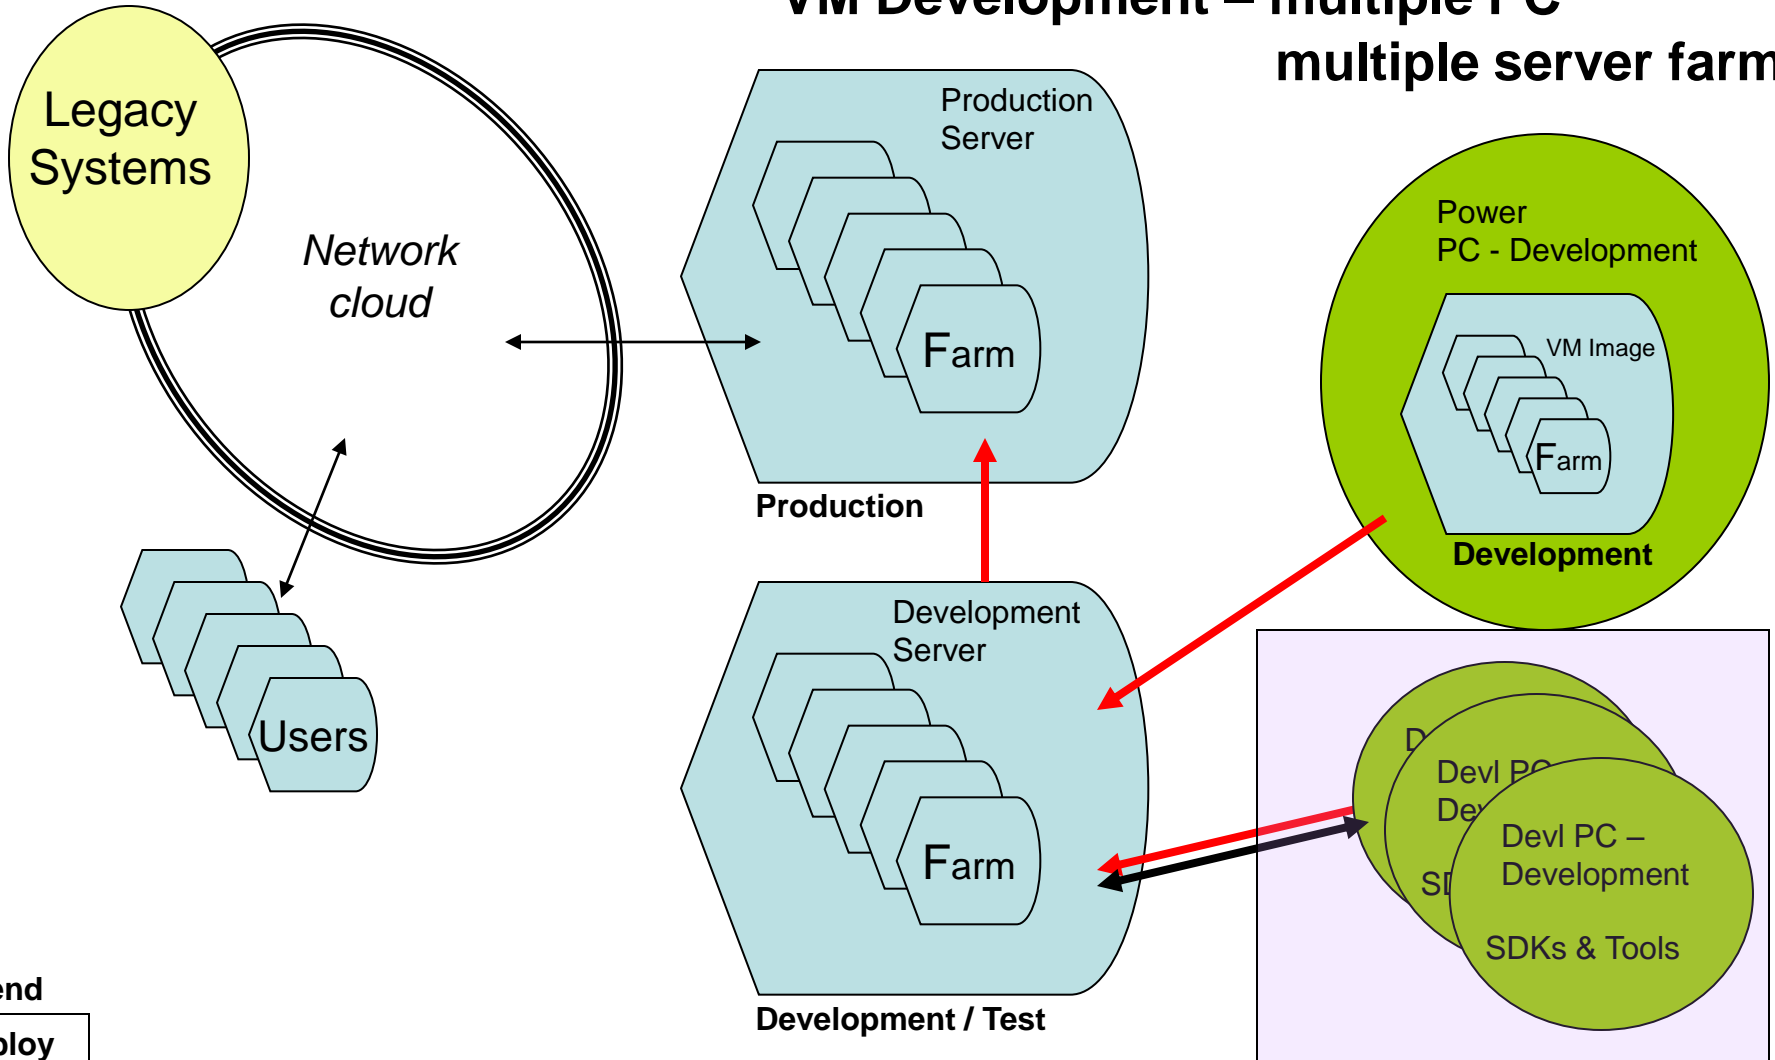

Production single server. Development multiple VM images in place multiple pc. This is VM Team Model development

Enterprise Size: Medium

Evolution of SP Collaborative Farm

VM Development – multiple PC

multiple server farm

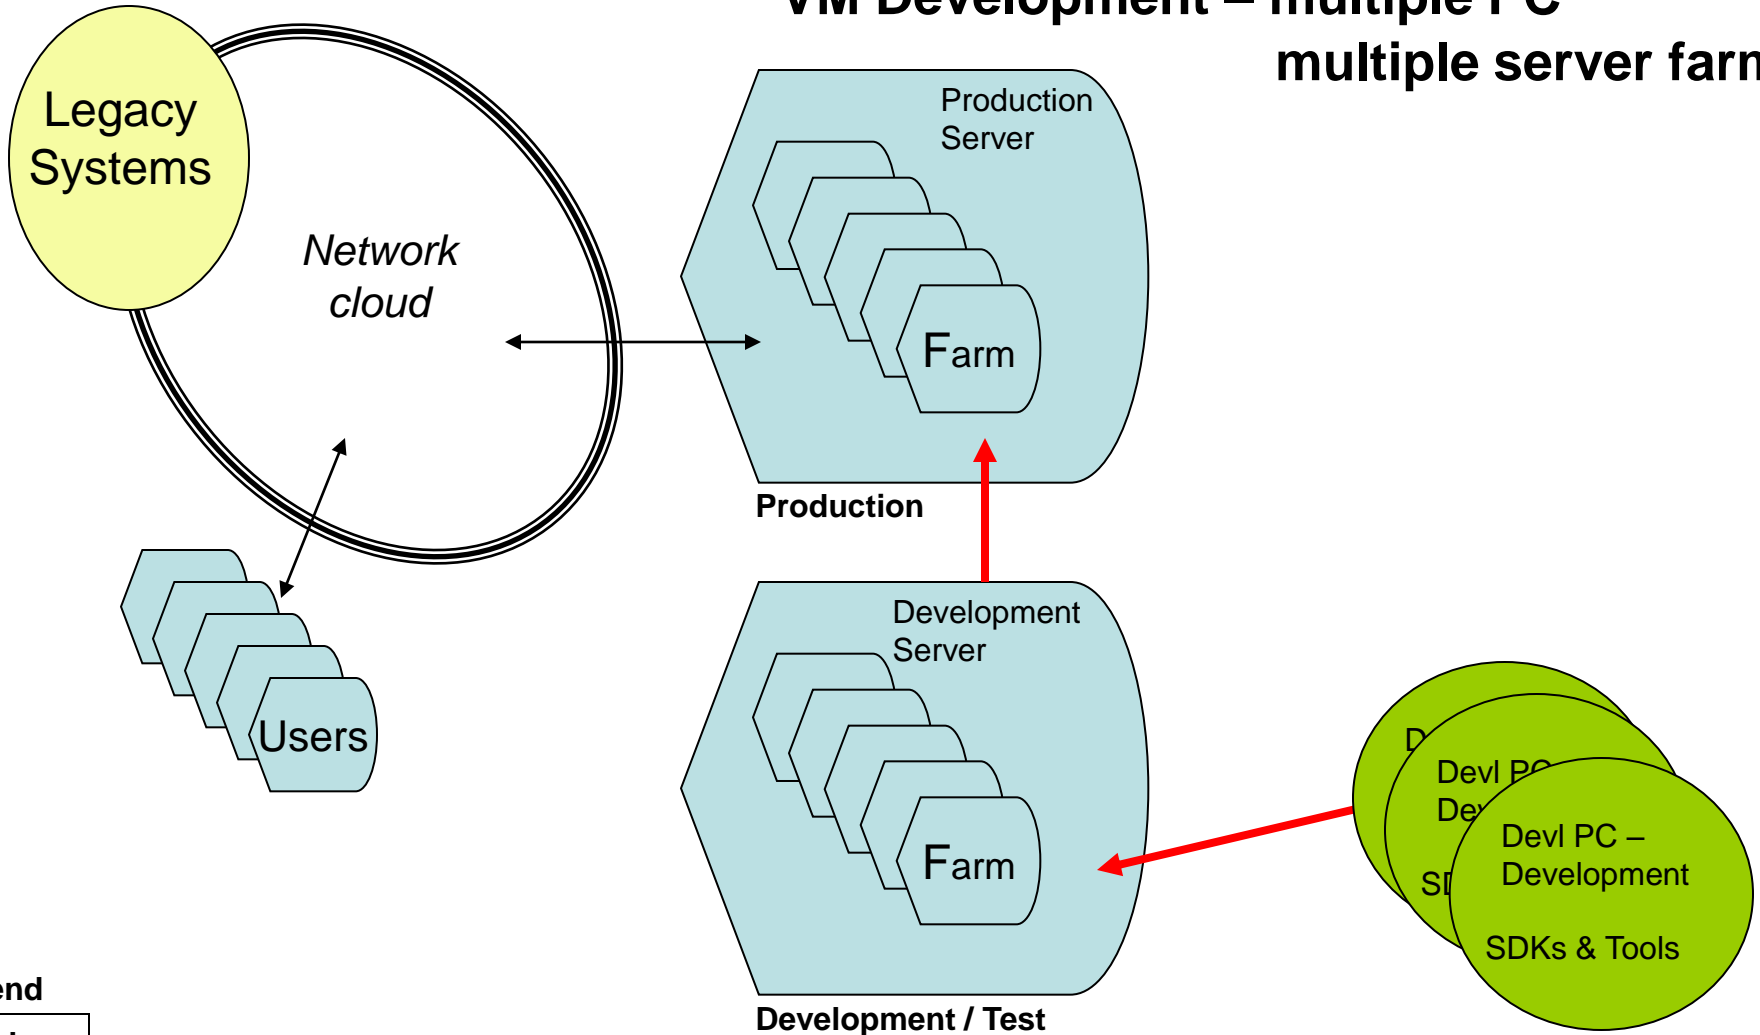

Production single server. Development single server. Developers multiple PC SDK in place multiple pc. Developers on VMs. This is Hybrid Team Model development

Enterprise Size: Medium/Large

Evolution of SP Collaborative Farm

VM Development – multiple PC

multiple server farm

Legend

Deploy

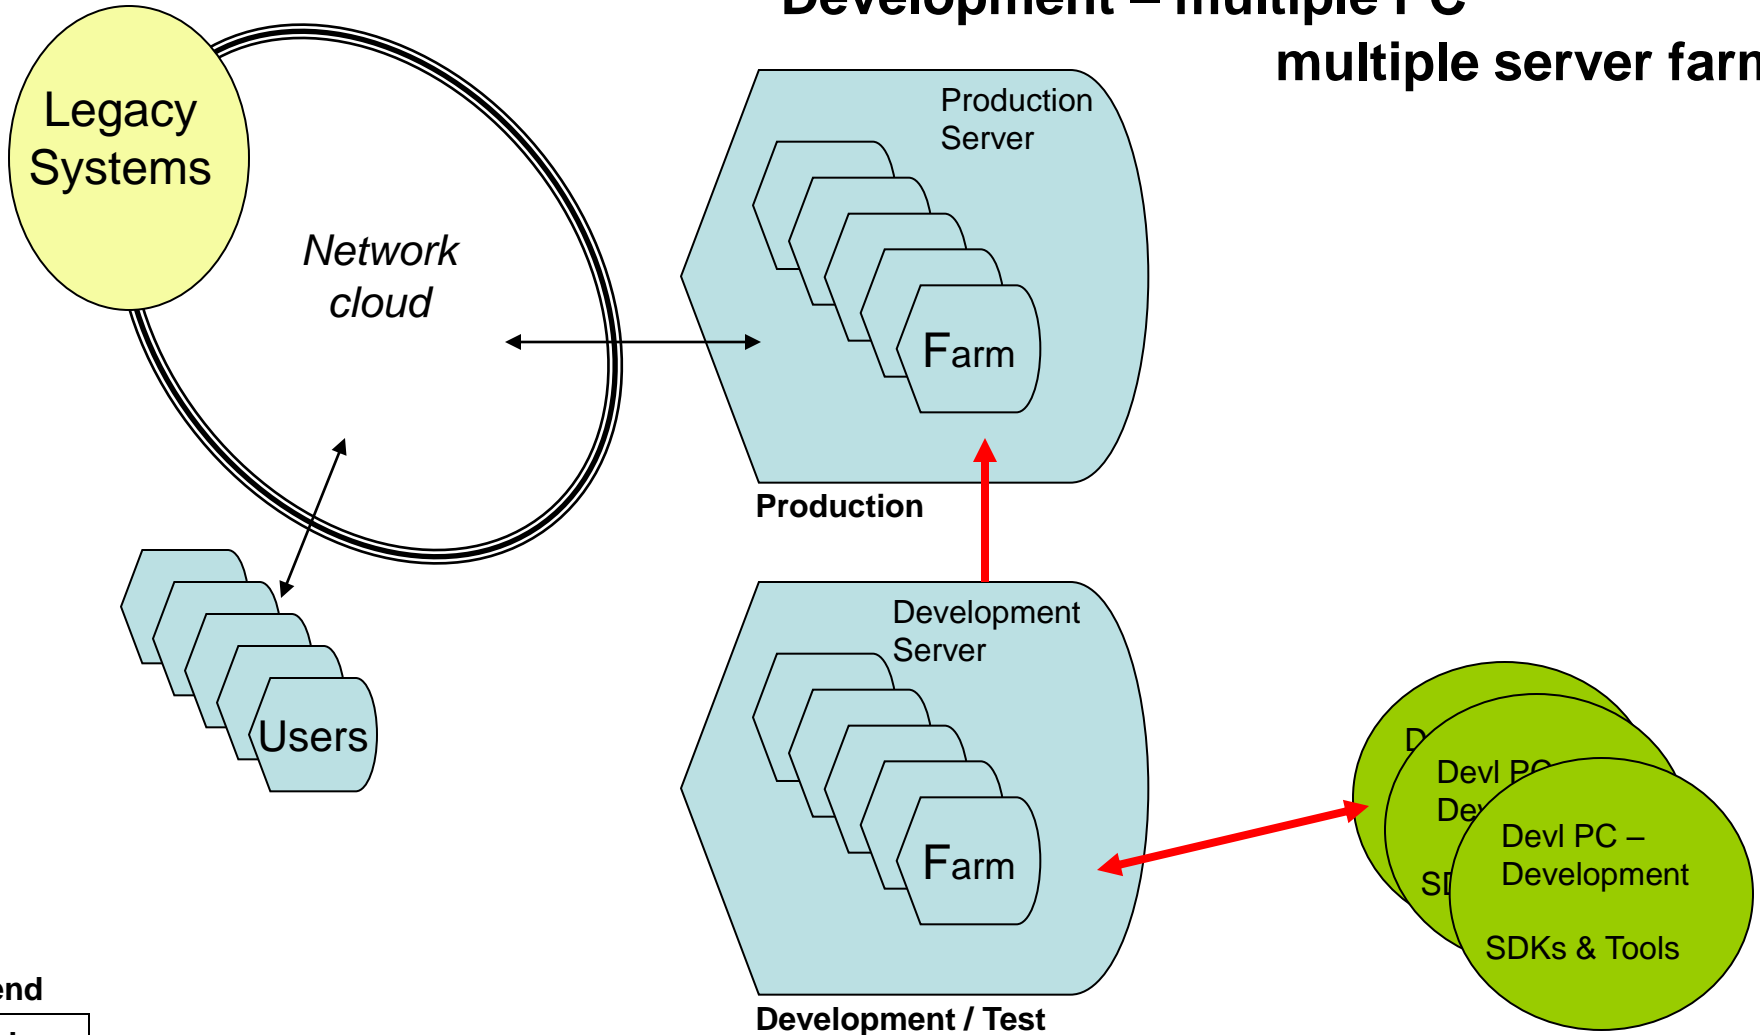

Production single server. Development single server. Developers multiple PC SDK in place multiple pc. This is Distributed Team Model development

Enterprise Size: Medium/Large

Evolution of SP Collaborative Farm

Development – multiple PC

multiple server farm

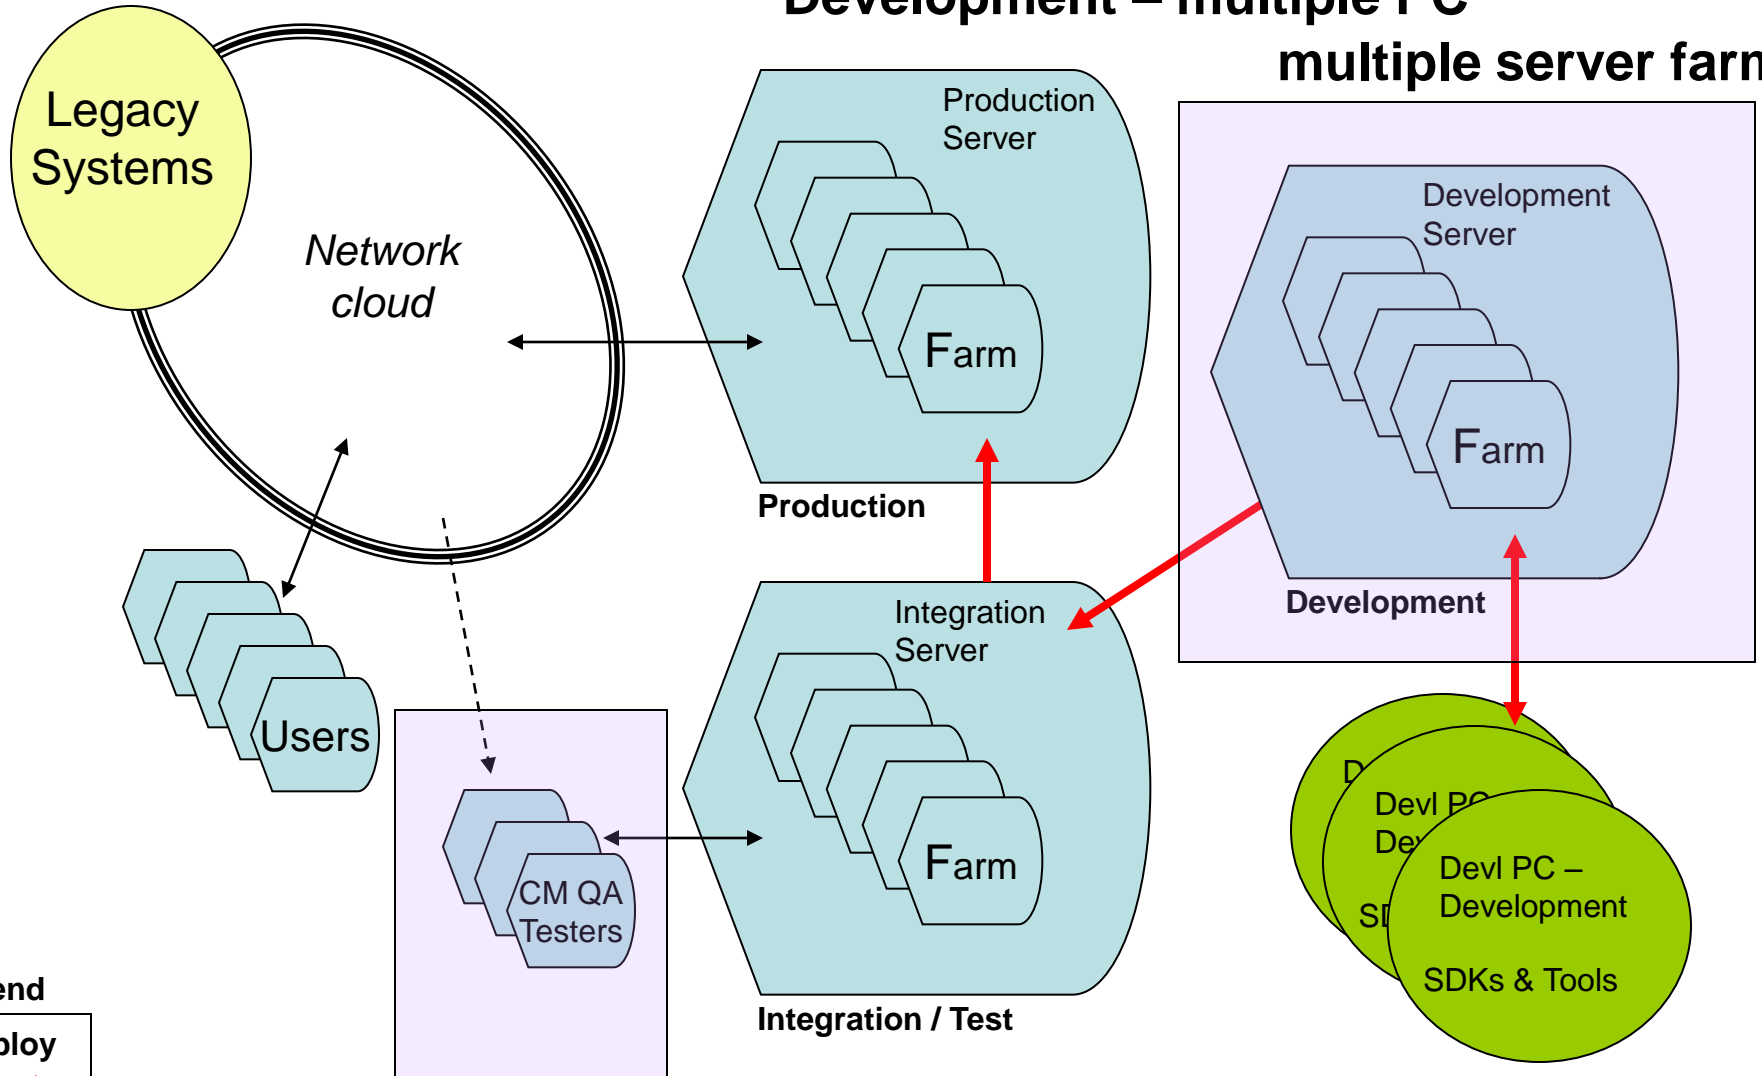

Production single server. Development single server. Developers multiple PC SDK in place multiple pc. This is Distributed Team Model development

Enterprise Size: Medium/Large

Evolution of SP Collaborative Farm

Development – multiple PC

multiple server farm

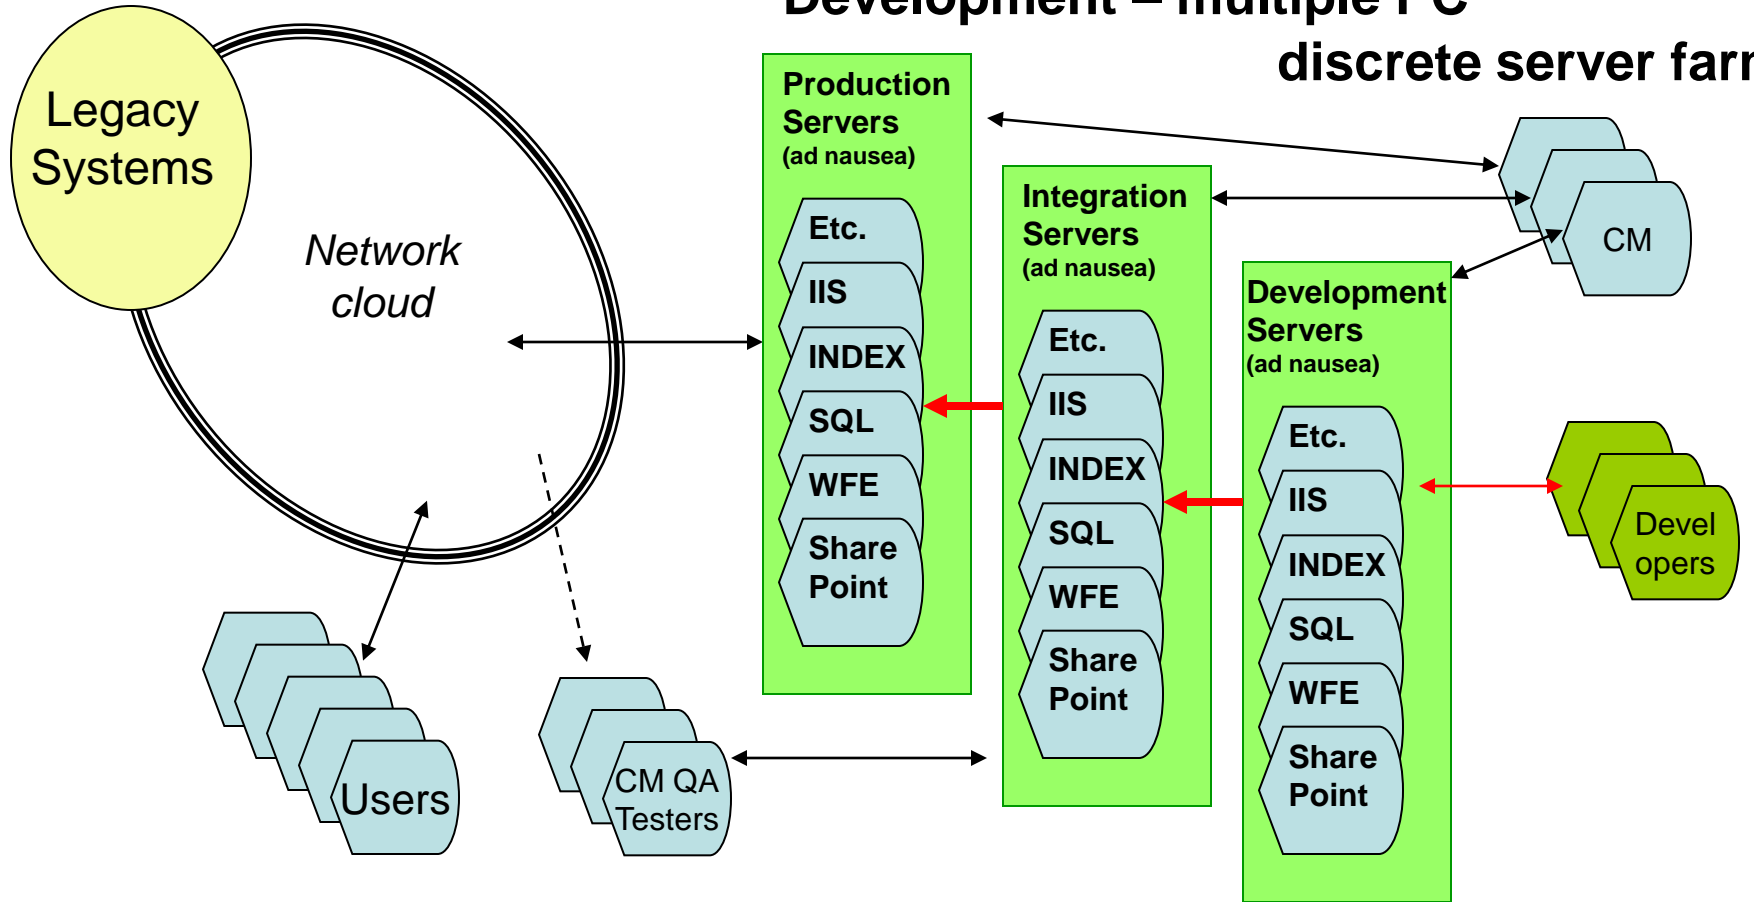

Production single server. Development single server. Developers multiple PC SDK. This is Distributed Team Model development

Enterprise Size: Large

Evolution of SP Collaborative Farm

Development – multiple PC

discrete server farm

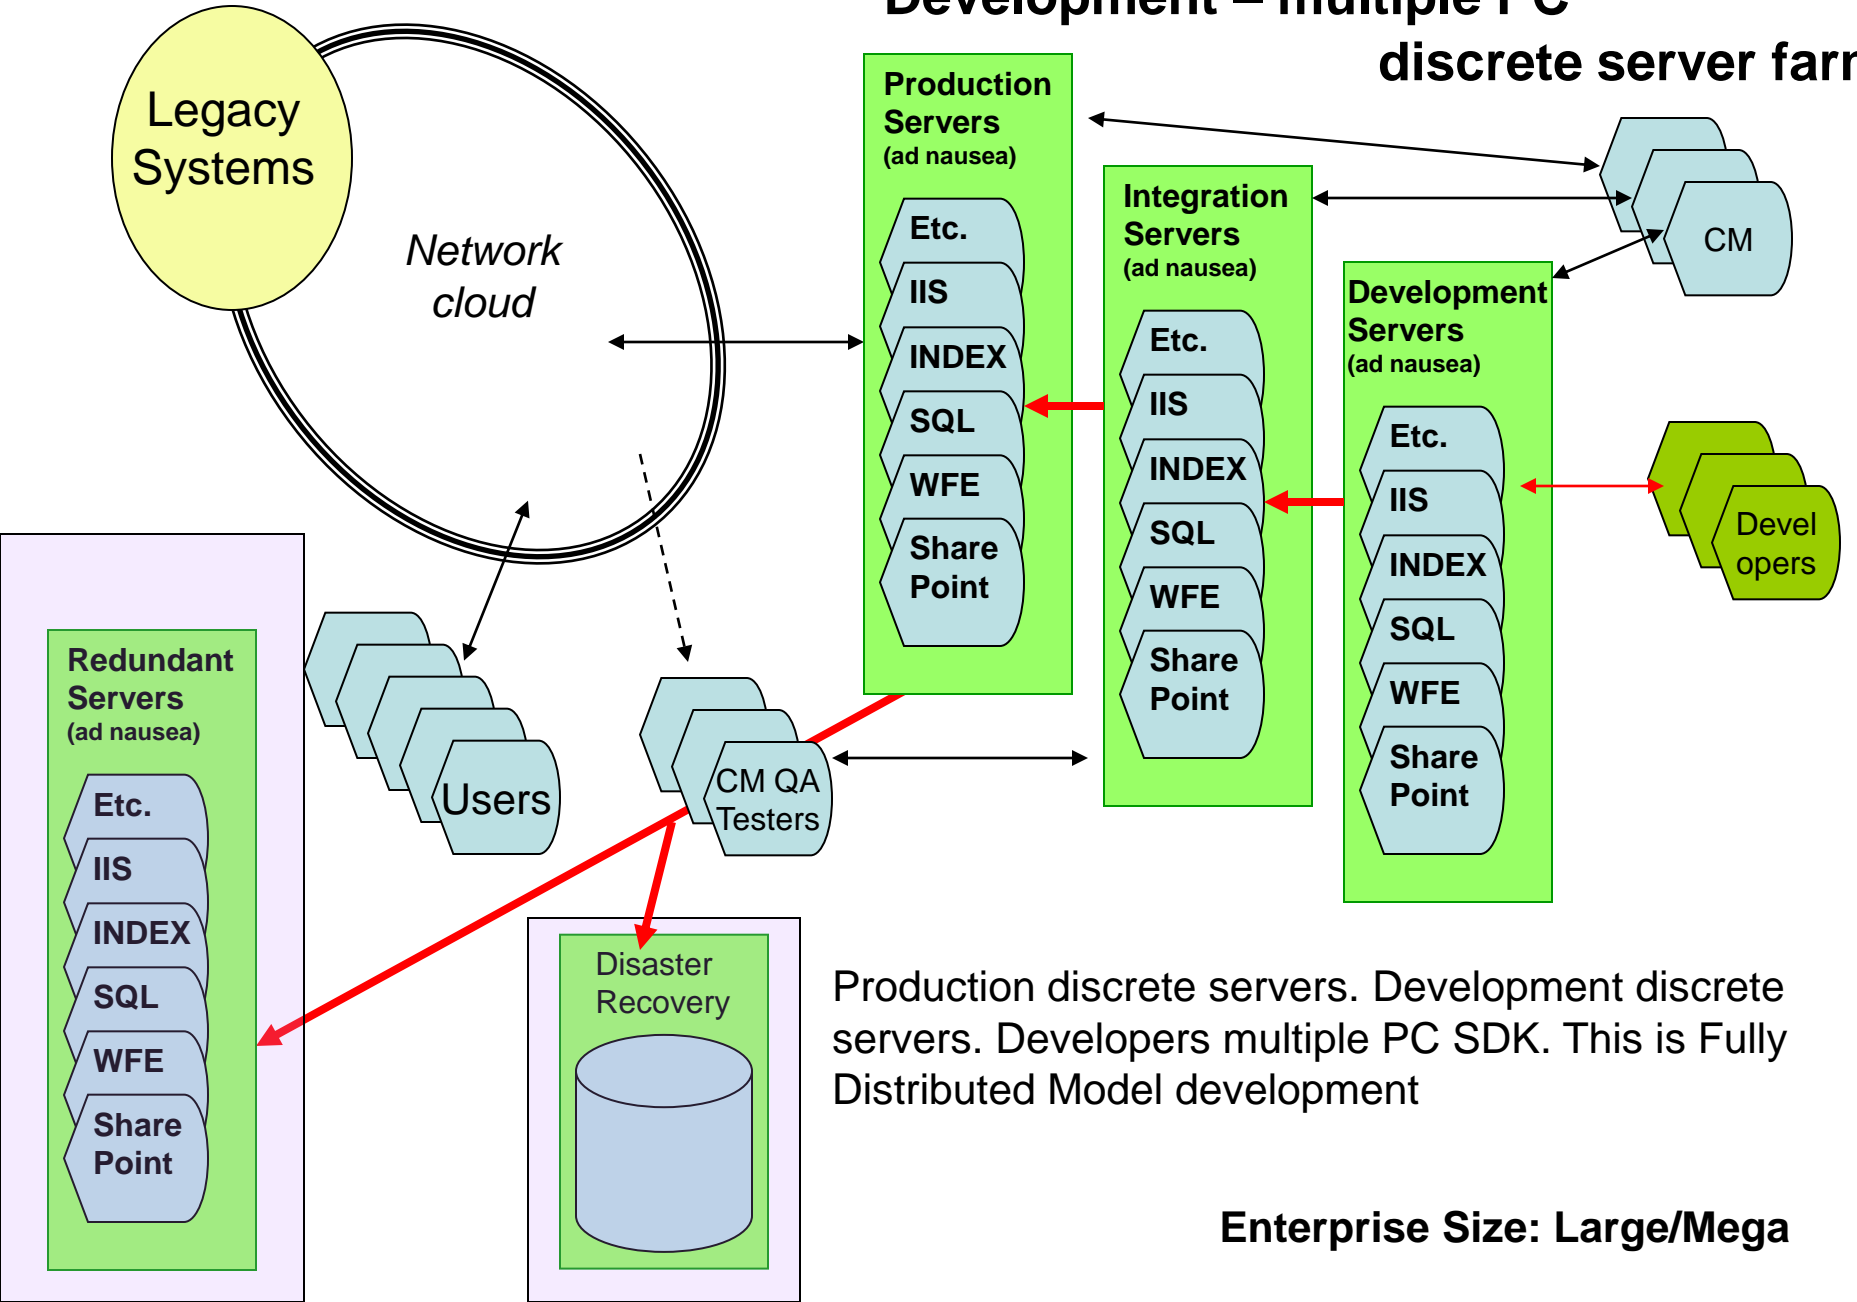

Production discrete servers. Development discrete servers. Developers multiple PC SDK. This is Fully Distributed Model development

Enterprise Size: Large/Mega

Evolution of SP Collaborative Farm

Development – multiple PC

discrete server farm
